DR-6030C

Fast, Accurate Scans. Immediate Productivity.

Canon's imageFORMULA DR-6030C departmental scanner blends high speeds and reliable document handling with versatility and convenience. The DR-6030C scanner provides comprehensive functionality in a desktop design that effectively delivers document capture benefits in any business application.

Wide Variety of Applications

The DR-6030C scanner is ideal for distributed scanning of high volumes of documents. At the front desk or in the back office, this scanner is well-suited for use at the departmental level. Government, financial services, healthcare, education, and other industries can benefit from its convenient design and its flexible, reliable document handling.

High Speed

The DR-6030C scanner is capable of scanning in colour as rapidly as it does in black and white—up to 80 pages or 160 images

per minute.* It also includes a 100-sheet Automatic Document Feeder (ADF).

Reliable

The DR-6030C scanner includes Ultrasonic Double-Feed Detection to ensure no data is lost in the event that a double-feed occurs. And in case of a misfeed, the scanner employs a Rapid Recovery System, allowing the user to resolve the issue and resume scanning from that point.

Versatile

The DR-6030C scanner can handle a wide variety of document types and features user-selectable paper paths. The default U-turn paper path works well for typical high-volume scan jobs, and the straight paper path can be selected for scanning items such as thick documents, plastic ID cards, and driver licenses. The DR-6030C scanner also includes a Long Document Mode to handle documents up to 118" in length.

Convenient

With an efficient design, the DR-6030C scanner is small enough to fit on a desktop. For added convenience, it can handle batches

of mixed documents. The DR-6030C scanner can deskew or rotate inverted images and has features such as Auto Page Size Detection and Skip Blank Page, to reduce preparation time and enable unattended batch scanning. For quick access to frequently used settings, users can register up to 100 sets of scanning preferences. And built-in MultiStream™ technology allows for the simultaneous output of different image types from a single scan.

Comprehensive

In addition to ISIS® and TWAIN drivers for easy integration with third-party Enterprise Content Management (ECM) applications, the DR-6030C scanner comes bundled with Canon CapturePerfect® and Kofax VirtualReScan software to deliver a complete, end-to-end solution.

High Image Quality

With a resolution of up to 600 dpi, the DR-6030C scanner delivers impressive and consistent image quality. Image processing features, including Three-Dimensional Colour Correction, Custom Colour Dropout, Punch Hole Removal, and High-Speed Text Enhancement, allow sharp image capture, resulting in better OCR accuracy and readability.

Environment in Mind

The DR-6030C scanner meets the ENERGY STAR® guidelines for energy efficiency and complies with the RoHS and WEEE directives for reduction of hazardous substances and waste products.
